ALL ABOUT TRON REALM PLATFORM

The TronRealm platform was developed by a team of blockchain software experts using smart contracts to create a fully decentralized network. This platform offers users the opportunity to engage in a decentralized environment, providing them with autonomy and control over their own data and assets.

The TronRealm technical team recognizes the challenges and drawbacks associated with traditional MLM structures, such as the inherent insecurity of centralization, lack of transparency, potential for variable management decisions, and the risk of delayed payouts. These factors can put users' funds at risk of theft or being held by third parties. The TronRealm platform aims to mitigate these risks through the use of decentralized technology, providing users with a secure and transparent environment for their transactions.

HAS THE TRONREALM PLATFORM'S CODE BEEN RIGOROUSLY TESTED AND REVIEWED TO ENSURE ITS SECURITY AND STABILITY?

In an effort to promote transparency and instill confidence in our platform, we have made the code for our Smart Contract publicly available on our homepage and have engaged the services of a reputable third-party auditing firm to thoroughly review and assess our code. The findings of this audit are available for all stakeholders to review. We believe that these measures demonstrate our commitment to delivering a secure and reliable platform for our users.

THE TRONREALM AUDIT REPORT PROVIDES A DETAILED ANALYSIS OF THE PLATFORM.

The code for our smart contract has undergone a comprehensive independent third-party audit, and the findings are publicly available for review on our homepage. This is intended to provide transparency and to assure users of the security and stability of our platform.

WHAT MAKES THE TRONREALM PLATFORM UNIQUE AND WHAT ADVANTAGES DOES IT OFFER TO USERS?

FULLY DECENTRALIZED ->

The TronRealm platform is designed to operate as a fully autonomous system, free from external management or control, even by its own software development team. This ensures that user funds are securely held in a smart contract between the user and the platform, giving users complete control over their assets and eliminating the need for intermediaries. Our commitment to decentralization ensures the safety and security of user funds.

TRANSPARENCY ->

As a user of the TronRealm platform, you have the ability to transparently view the full history of transactions and their corresponding details that have been made on the platform since the creation of the underlying smart contract. This level of transparency is a key feature of our platform, providing users with complete visibility and control over their assets and transactions.

REAL-TIME TRANSACTIONS ->

The TronRealm platform utilizes the speed and security of the Tron blockchain to enable users to make unlimited transactions, subject to their available balance, without the need for intermediaries to process contributions or withdrawal requests. This allows users to have full control over their assets and transactions, with instant confirmation of all transactions on the blockchain. Our commitment to decentralization and transparency empowers users and enhances the security of the platform.

INDESTRUCTIBILITY ->

The TronRealm platform is designed to be immutable, meaning that it cannot be altered or affected by any changes in decisions or circumstances from the day it was created. The terms of the platform are fixed and cannot be changed, providing users with a stable and reliable environment for their transactions. This immutability is similar to a law that cannot be bent or altered, and ensures the security and integrity of the platform.

MARKETING STRATEGY ->

The TronRealm rewards plan is carefully crafted to ensure long-term sustainability and to provide opportunities for growth and success for all stakeholders. This plan takes into account the needs and expectations of both passive participants and leaders who are building teams, and is designed to provide a fair and transparent environment for all members of the platform. Our commitment to providing value and support to all users is reflected in the design and implementation of this rewards plan.

IMPENETRABLE DEFENSE ->

TronRealm smart contract is based on blockchain technology, which is a secure and robust platform that is resistant to hacking. Because of this, users contributions are safe and secure on the TronRealm platform.

WHAT MAKES THE TRONREALM PLATFORM UNIQUE AND WHAT BENEFITS DOES IT OFFER TO USERS?

MINIMUM STAKE
100 TRX

MAXIMUM STAKE
8 000 000 TRX
(PER TRANSACTION)

TOTAL INCOME
300%
(DEPOSIT INCLUDED)

1

BASIC EARNING RATE: -> 2.6% ROI EVERY 24 HOURS
The TronRealm smart contract automatically calculates passive rewards for each contribution, starting from the date it was made, and applies a daily of 2.6% ROI. This ensures that users receive regular and consistent rewards for their contributions to the platform.

2

PERSONAL HOLD-BONUS OF +0.1% ROI FOR EVERY 24-HOURS THAT YOU DO NOT WITHDRAW -> 1% ROI at Maximum Level
The TronRealm platform offers a personal hold-bonus of 0.1% ROI for every 24-hour period in which a user does not make a withdrawal. This reward is intended to encourage users to hold their assets on the platform and to participate in the ecosystem.

The TronRealm smart contract calculates a personal hold-bonus for each user based on their contribution and withdrawal history. If a withdrawal has not been made, the bonus is automatically applied as an additional reward. This incentivizes users to hold their assets on the platform and to participate in the ecosystem, while ensuring fair and consistent rewards for their contributions.
The TronRealm platform offers a personal hold-bonus that accumulates at a rate of 0.1% ROI per day for users who do not make a withdrawal. This bonus can reach a maximum of 1% ROI extra, and is reset to zero if a user makes a withdrawal. This reward is intended to incentivize users to hold their assets on the platform and to participate in the ecosystem. The terms and conditions of this bonus are outlined in the smart contract and are available for review by all users.

3

CONTRIBUTION TOTAL BALANCE BONUS +0.2% ROI FOR EVERY 1 MILLION TRX ON PLATFORM BALANCE -> 1% ROI at Maximum Level
The TronRealm platform offers a 0.2% ROI contract total balance bonus for every 1 million TRX on the platform balance. This reward is intended to incentivize users to contribute to the platform and to support its growth. The terms and conditions of this bonus are outlined in the smart contract.
The TronRealm smart contract regularly checks the platform's current balance and pays out an additional bonus of 0.2% ROI to all members for every 1 million TRX. This bonus can reach a maximum of 1% ROI extra at 5 million TRX depostited. This reward is designed to encourage users to contribute to the platform and to support its growth and success.

4

COMMUNITY INCENTIVE -> 0.5% ROI at Maximul Level
The TronRealm platform offers an additional 0.1% ROI reward for every 800 active users on the platform. This bonus can reach a maximum of 0.5% ROI extra when the contract total users are over 4000. This reward is designed to encourage users to contribute to the platform and to support its growth and success.

5

PREMIUM INCENTIVE -> 0.5% ROI at Maximum Level
The referral commission for the community will receive an additional 0.1% ROI reward each time the platform distributes 10 million TRX. The maximum extra amount that can be earned is 0.5% ROI at 50 milion TRX total deposited.
